SUMMARY

Aspiring Software Engineer with a Passion for Learning

Dedicated and motivated software engineer eager to embark on a career in software development. Armed with a foundation in fundamental programming concepts and a commitment to continuous learning, I am enthusiastic about contributing to innovative projects and expanding my expertise in the world of software engineering. Known for my problem-solving abilities, strong work ethic, and adaptability, I am ready to take on new challenges and thrive in a dynamic, collaborative environment. Seeking opportunities to work with experienced professionals, build on my existing skills, and grow into a proficient software engineer.

WORK EXPERIENCE

Dec 2021 – jun 2023	**Dassault system Lab (ds3)**	**System Software Engineer**
May 2021- dec 2021	**Randstand (nvidia)**	**Associate engineer**
May 2021- dec 2021	**Newtons school**	**Internship(part time)**

EDUCATION

Dr. A.P.J. Abdul Kalam Technical University

Kanpur, India

B. TECH. – Computer science and eng.

Jul 2016 - Jun 2019

Percentage: 71.68%

SKILLS

Technical Skills:

Programming Languages: **Java,Javascript**	RDBMS: **MySQL & Oracle 10g**	Project Management Tool: **Jira,vue js**
Backend: **SpringBoot, JDBC**	Version Control: **Git**	Methodologies: **Agile Model**

Tools: **STS, Eclipse, Postman**

PROJECTS

Data WorkFlow Enhancement:

It was an insurance project where we mainly worked on policy renewal.

- Reviewed legacy code of the project in Java Programming language.
- Added new commands to add new functionalities like fetching, validating and processing the data.

Enhancement of Client App Functionality:

Technologies Used: Java, Spring Boot, HTML, CSS, JavaScript

It was a Health insurance based application where we mainly dealt with Renewal of old plans. It is a middleware application where we consume APIs and create new APIs for our end users.

- Involved in analyzing the Business requirements to design logic for the application
- Develop rest Controller, Service classes and Helper Classes
- Involved in enhancement tasks like adding new attributes
- Involved in maintaining the code
